

Figures and Free Team

I am pleased to announce a few changes that will help strengthen the Figures and Free team going forward

Coaching Team

Chris Fox will continue to have an overall responsibility for the coaching team, however to ensure we have a key focus on Figures I am pleased to announce that Glenn Wicks will become GB Head of Figures. Glenn has clearly proved his strength in this area by his track record of results over the years and also as an international skater himself.

Ben Prior in addition to his RollArt role he will also join the coaching team. Ben's expertise will add a lot of value to the existing coaching team. With a clear focus now on both disciplines Paul, Lee, Ben and Neil will work across both disciplines supporting Chris and Glenn whilst also working on a new test structure, coach education plan and formation of a national squad structure to help our skaters achieve the success internationally that we have been used to over the years.

Technical Officer

Natalie Cannon will join the team taking on this key role. Whilst Natalie has a background in Dance, her knowledge of the judging system will be a great asset to the team and will allow her to increase her Figures and Free knowledge by being an integral part of the team.

Ben will continue in his role as our Rollart specialist.

I am sure you will all join me in wishing Glenn, Natalie and Ben every success in their new roles.

Jim
