

Nina Asquith - Head of Figures and Free

On behalf of the Board of Trustees, I am delighted to announce that Nina Asquith has been appointed as our Head of Figures and Free Skating. Nina's appointment will be until the AGM of 2020 this being the date when the post would have come up for re-election in the normal course of events. The trustees have witnessed over the last few months the need to have some clear standards and goals that will ultimately allow this discipline to achieve more acceptable results at international events. Nina has been in the sport for many years and has great credibility amongst the membership and has the Leadership and Personal qualities needed for this key role. Nina will be announcing her team within the next few days.

I have to acknowledge the tremendous job Nick Loader has done, stepping in and holding the fort earlier in the year. With his support Chris Fox was appointed as Coaching Officer and has started the discipline on a journey of setting clear standards for the future, however to enable us to clearly drive this forward, the need for a permanent Head of Figure and Free was crucial. Nina's working relationship with Nick will be invaluable in ensuring we have a consistent approach within the sport. The passion shown by both Nina and Nick and their appointed teams can only enhance our goals to have GB once again as a force to be reckoned with internationally.

The trustees are totally committed to ensuring the sport progresses on a platform of ability rather than personality. To achieve this, we must all pull together and use the expertise available at all levels within the sport. With the introduction of Rollart there is a major development and educational programme to be introduced.

I am sure you will join me in wishing Nina every success in her new role

Kind Regards

Jim Drain

On behalf of The Board of Trustees
